SUMMARY

Efficient problem solver with strong analytical and planning abilities, a quick learner with creative thinking to improve processes, good teamwork, leadership qualities, and effective, timely responses. Adaptable to new technologies with continuous learning and skill development.

PROJECTS

MedX – Online Medical Consultation System

- Developed a secure web-based healthcare platform with separate login modules for doctors and patients.
- Each patient is assigned a unique QR code containing their medical identity.
- Doctors can scan the patient's QR code to instantly access, read, and update medical documents and history.
- Patients can upload medical reports and consult doctors remotely through the system.
- **Tech Stack:** Java, React, Spring Boot

Student Leave Management System

- Developed a leave and OD request management system for students using ServiceNow.
- Students can create requests containing student name, register number, email, leave description, priority, and proof document attachment.
- Automated workflow routes requests to the HOD for approval after submission.
- If approved, request status changes to Accepted and an email notification is sent to the student.
- If rejected, request status changes to Rejected and a rejection email is sent automatically.
- **Tech Stack:** ServiceNow, Flow Designer, ImportSets, Tables, ACL

Data De-duplication System

- Designed a cloud-based system to validate new records against existing data.
- Automatically detects and removes duplicate and false-positive entries.
- Ensures only unique and verified data is stored, improving database accuracy and efficiency.
- **Tech Stack:** Python

SOFT SKILLS

Creativity Time Management Teamwork
Emotional Intelligence

EDUCATION

B.E in Computer Science and Engineering
(Pursuing – 4th Year)

RMK College of Engineering and Technology, Pudukkottai

📅 Aug 2023 – Jun 2027 CGPA : 8.01

SKILLS

Java C++ SQL

- **Design Tools:** Figma (UI/UX design, prototyping)
- **Cloud Platforms:** Google Cloud, AWS, Servicenow
- **Web Development Tools:** VS Code, Cursor AI
- **Coding Platforms:** Skillrack, LeetCode

INTERNSHIP EXPERIENCE

ServiceNow Virtual Intern

ServiceNow, AICTE & SmartBridge

📅 May 2026 – June 2026

- Learned ServiceNow fundamentals and gained hands-on experience with the ServiceNow platform.
- Worked on developing applications and workflows using a Personal Developer Instance (PDI).
- Built and managed projects involving automation, request handling, and approval workflows.
- Improved practical knowledge of ServiceNow modules, Flow Designer, client scripts, and platform customization.

ACHIEVEMENTS

- Secured **College First** in the ServiceNow Certification Exam.
- Earned **6 Skill Badges** in Google Cloud Skills Boost.
- Achieved **300+ Bronze Medals** on SkillRack.
- Won **2nd Prize** in a Quiz Competition organized by the college.

CERTIFICATIONS

- ServiceNow Certified System Administrator
- ServiceNow Certified Application Developer
- Google Cloud Skills Boost: Google Cloud Fundamentals – Core Infrastructure; Google Cloud Engineering Certificate (Credly)
- AWS: Cloud Architect Certification
- Bharathidasan University: Programming Techniques (First Class with Distinction)
